AGENDA SUPPORTING INFORMATION

Agenda #7

Subject: Discussion of the proposed budget for 2022 (July 2021-June 2022) and approval to publish a notice of a Public Hearing on June 15, 2021.

Submitted by: Vanessa Stevens, General Manager

Meeting Date: May 18, 2021

Background: As required by the California Government Code, the Board and Public are being presented a draft budget for Fiscal Year 2022. With the Boards authorization a notice will be placed in the Tehachapi News for comments on the budget.

At the June 15, 2021 Board Meeting a Public Hearing will be held in regard to comments on the budget and the budget will then be approved by the Board of Directors.

Electronically we have submitted to each Board Member and the public the detailed budget, an overview of the budget and an organizational chart showing employees assigned to their respective departments.

Should anyone wish to receive a hard copy of the detailed budget please contact Vanessa Stevens. Should anyone have questions in regard to the budget please contact Vanessa Stevens and we will answer those questions prior to the meeting.

Recommendations: Discuss the budget and make a motion for staff to publish a notice for Public Hearing to be held June 15, 2021 Board Meeting.

THE NARRATIVE FOR THE FISCAL YEAR 2022 DRAFT BUDGET

This proposed budget is presented as is with the assumption that the District and the community will be at full operations without any COVID restrictions.

The narrative listed below attempts to give an overview of each department but questions are always welcomed.

General Comments that impact all departments:

The budget includes a 2% cost of living increase for all employees, a 5% merit increase for all employees (though some may not qualify) and a 5% increase in health insurance costs. The budget also reflects good news that our modification factor dropped in the calculation of workers compensation insurance so most departments showed a decrease in that cost. Property and liability costs are showing a significant increase in all departments. It should also be noted that administration and police pay a significant amount of money into CalPERS for the UNFUNDED portion of the CalPERS \$50,000 for administration and \$40,000 for police.

ADMINISTRATION

Personnel costs have been budgeted to show a significant increase due to a full-time general manager, 50% of the public works supervisor being allocated in administration and having the support staff needed for a very busy office.

Operational costs are budgeted based on historic numbers and the fact that it does not appear there will be any unusual expenses.

There is no money budgeted for capital expenditures. The District will probably be obtaining a new copy machine (the existing copy machine is over ten years old and the company will no longer support a maintenance agreement for it) but it will be based on a lease expense which will appear in operational expenses.

As noted, administration must rely on the allocation money that all the other departments pay into along with some property tax money to offset expenses.

PARKS

We are expecting big things to happen in the parks and recreation operations of Stallion Springs. We hope that the community will support the activities we have planned for this coming fiscal year.

With that said, the parks department will be fully staffed with a lead park coordinator, recreational aids, lifeguards and the support staff to properly care for the maintenance of all the park needs.

The personnel expenses reflect the support needed for a fully operational recreational program.

The operational expenses reflect prior years operational costs based on the programs we have had and are projected to have.

There are no capital expenses budgeted. As noted to the Board, staff continues to submit grant requests for additional park facilities and programs.

The parks department is supported by revenue from property taxes and fees for the various programs. The board many years ago developed the concept that, generally speaking, programs should pay for 50% costs with fees involved and the other 50% through property taxes.

POLICE

The budget reflects income to support the police coming primarily from three areas. Property tax money, State SLEF money and the assessment the voters approved (thank you).

The budget reflects five full time officers which includes the Chief.

Operational costs involve historic numbers plus some additional expenses based on the knowledge of operations and some changes that have taken place, i.e., insurance, legal, lab analysis.

There are no planned capital purchases for fiscal year 2022.

ROADS

Roads are fully dependent on the \$150 per year per parcel assessment and as has been noted before, this amount has been the same since the late 1970's.

The roads department does not have dedicated staff for road work but pays a proportionately higher amount of allocation money for the work that is done on the roads. Operational expenses are minimal to cover the cost of road patching and weed control along with cleanup of roads and gutters.

The big expense is the annual payment of \$182,642 for the money borrowed to perform a much-needed road contract a few years ago.

There are no additional monies placed in the road's capital budget. We may need to determine later in the year if some roads will need oiling to properly maintain them which would be an additional expense not budgeted.

WATER

The revenue projected is a bit less than this current year and that is based on drought conditions asking individuals to cut back on water use, thus water sales will drop. I continue to budget very conservatively in regard to new homes going in and the water capacity fees based on those new homes. Hopefully new builds will continue at its hot pace and we will receive more money than projected.

Operational expenses include a reduction of one employee in the water department and thus a reduction in personnel costs. Other operational costs are based on historic numbers which includes the District having to pay property taxes on the two properties purchased from Bornt.

The only capital item placed in the budget at this time is the annual loan payment of \$243,000 for the Bornt properties. There may be additional capital items but we are waiting to receive some additional information in regard to this issue.

SEWER

Revenue for the sewer/waste water operations is based primarily on the service charge. Again, a very conservative dollar amount has been budgeted for new homes and the capacity and connection fees associated with new homes.

The budgeted operational costs for Fiscal Year 2022 are as has been expended in previous years.

For capital costs the two semi-annual loan payments for the lift station are included along with the possible purchase of a vehicle. There may be some additional capital needs but we are still looking at what those might be for fiscal year 2022.

SOLID WASTE

Revenue is based on the solid waste charge which is placed on the resident's water bill. With the new set up for the solid waste site some money is now coming in for those that need more than two decals for solid waste access per year.

Operational costs are based on historic numbers discounting what the district expended as one-time charges to place the solid waste site in order this year.

There are no capital expenses planned for 2022.

ARTCOM

A conservative amount of revenue is budgeted based on new homes and remodels, i.e. Fence installations, painting, etc. Expenses are minimal based on a possible legal fee or two being needed.

OVERVIEW

The Budget Overview spreadsheet reflects revenue, operating expenses, allocation amounts, capital needs and the net financial expectations for each department.

For the three departments that rely on property taxes the net result is a positive \$1,712.

For the roads department the bottom line is showing a negative \$64,062. I strongly encourage the board to consider the process of attempting to increase the road assessment. Possibly the voters would approve an additional \$25 per year per parcel in order to get the roads in a positive bottom line.

The water department carries some unknown factors. The bottom line for fiscal year 2022 projects to a \$200,462 loss for the year.

The unknown factors are the results from placing the AMI meters in the District and how much more revenue that will generate based on the District not losing water sales revenue. We have asked the bank to hold off the beginning of the loan payment for one additional year and we are waiting to hear from them. There will also be the need to determine exactly how much time staff dedicates to water operations over this fiscal year to see if some adjustments need to be made.

With that said the current fiscal year had a good amount of revenue come in from new homes. Water capacity money can offset any loan payments made so if new homes continue in Stallion that will assist in the capital costs the district is incurring to provide potable water to the community.

The sewer department is operating at a financially positive number, thanks to the engineering study and the rate increase a few years ago. We are hopeful that with Woodward beginning operations again and the Country Club, with its new owner operating in the near future, the revenue may even grow and continue to support the waste water operations.

The project of placing gates at the solid waste site, asking residents to separate their trash and fining individuals for failure to follow the rules has been very successful in allowing the district to continue to provide solid waste services without having to increase the fees.

Again, questions in regard to this narrative and the draft fiscal year 2022 budget are welcomed.

AGENDA SUPPORTING INFORMATION

Agenda #8

Subject: Board approval of Resolution No.2021-12, authorizing the Financial Officer to prepare a report summarizing a list of properties with delinquent and inactive charges and set a hearing date in accordance with Government Code Section 61115.

Submitted by: Vanessa Stevens, General Manager

Meeting Date: May 18, 2021

Background: After years of losing revenue, the District Board in 2010 developed a policy in conjunction with Government Code Section 61115 that allows the District to collect monies that possibly would be "lost" because of ownership changes, individuals failing to pay final bills and individuals turning their water off for a period of time.

Essentially the law states that bills for water, wastewater and solid waste use stay with the property. This allows the District to pursue monies owed by individuals failing to pay a bill, even if those individuals have moved away.

The law and the District also allow the District to collect the Service fees, even if the property owner has requested that the meter be locked off for a period of time. The thought process is that the District must continue to operate and individuals not utilizing water for a period of time does not relieve them of the need to pay the service charge.

Since the adoption of this policy staff has made numerous changes in our efforts to obtain the payments from previous home owners. The changes we have mad have significantly reduced the number of unpaid utilities bills and we will continue to work on resolutions as they arise.

It should be noted that the monies placed on the tax bill is NOT A LIEN BUT SIMPLY A CHARGE for water, wastewater and/or solid waste. The notice has been placed in the Tehachapi News.

Recommendation: Approve Resolution No. 2021-12, and set the hearing date for June 15, 2021 .
