

The Stallion Springs Bridge

June - July 2006

Issue No. 119

Build a bridge, not a barrier; make a friend, not a fuss; find a cause, not a controversy; be a cheerleader, not a critic; seek a solution, not a standoff

BRIDGE BEGINS THIRTEENTH CONSECUTIVE YEAR OF PUBLICATION!!!

The Stallion Springs Community Services District newsletter, THE BRIDGE, marks its thirteenth consecutive year of publication with this issue, June/July 2006. For twelve years now The Bridge has been published every other month and in some cases special issues have been published to provide critical information to the Community on a timely basis.

The Bridge has been the means with which the District has communicated what is going on in the community and has attempted to especially inform residents of upcoming items and issues that affect them. It is hoped that the District's website will be a nice addition to the Bridge within the next few months.

For those residents that read the Bridge and agree that it is informative, the General Manager would appreciate you passing that thought on to residents that may have not taken the time to look over the

newsletter when it appears in their paperholders (for residents that do not have mailboxes with paperholders a copy can be picked up at the office right around the time water bills are received.

The growth of this community has been

unprecedented over the past couple of years and so with growth comes the very important need of communicating and informing. This copy of the Bridge contains information in regard to the Community Center, The Quality of your drinking

water, information in regard to fire protection and other items that we hope are of interest to all in the community. Please take the time to read over the District's newsletter and all comments are welcome. Please send them to the General Manager, David Aranda.

Status of the Stallion Springs Community Center

As most residents are aware the District purchased property on the south side of Stallion Springs Drive off Churchill for a Community Center. A local architect drew up renderings of the center.

Those renderings were used to submit two grants to the State of California. The District was informed that the State was awarding a grant for \$650,000 and a grant for \$500,000 toward the building of a gym and multipurpose room with the need for \$350,000 in matching funds.

The District then priced out the full development of the community center and the cost to build the gym/multipurpose room. The dollar amounts were staggering. The information was provided to the community in the form of The Bridge, a survey and a Town Hall meeting.

Based on the survey and the Town Hall meeting the Board of Directors directed the General Manager to attempt to price the gym and multipurpose room so that it would be more in line with the grant money and matching funds and then proceed with that project as phase one of the overall community center.

An agreement was entered into with Klassen Corp. to design and build the gym/multipurpose room. The overall scope of this project is estimated to cost 1.7 million (\$1,700,000.)

The Design phase is ongoing and hopefully ground will be broken within the next 90 days. Schematics and Elevations are available to view at the District Office.

Now we need the community's help. \$200 per household would provide over \$200,000 toward the matching portion of the grant. The General Manager believes that with each household (not person) providing a tax deductible check to the Police Activities League toward the Community Center AND the General Manager pursuing other donations from vendors, contractors etc., the District will reach the goal of obtaining \$300,000 to \$400,000. The District would then fund the remaining dollars needed to see the completion of phase one.

— INFORMATION & NOTES —

... The Kern County Fire Department has determined that defensible space clearance of 100 feet must be accomplished around improved properties by June 9, 2006.

... Stallion Springs CSD has sent out notices to unimproved lot owners regarding the mowing down of their lots. Lot mowing by the District will begin the latter part of June.

... WHERE IS FIDO? PLEASE REMEMBER PER KERN COUNTY ANIMAL CONTROL ALL DOGS MUST BE ON A LEASH OR FENCED IN!!! Violators are subject to a ticket by Stallion Springs Police or Kern County Animal Control.

... All residents interested in preserving and enhancing agriculture will be interested in attending a newly formed group entitled The Tehachapi Ag Futures Alliance. For more information contact the General Manager at 822-3268.

... The CC&R's address lights. Please be polite to your neighbors and make sure your outside lights are in compliance with the CC&R's.

... Remember Garage Sale signs are okay for no more than three days. Please remove the sign after the event.

... A reminder to all residents. The District owns the roads and right of ways (the additional 10-30 feet alongside the paved road). Driveway Encroachment permits allow property owners to access their property. For residents to drive over curbs and berms is illegal and causes damage to the roadway. Please only drive onto property via driveways.

... Should any resident notice that a contractor has left his construction site with litter, please contact the General Manager at 822-3268, ext. 224.

... For District emergencies off hours, such as a main line water break you may call 822-3268. Upon receiving the recording press one and leave a message with the problem and your name and contact number and on call district staff will be paged.

... For emergency police, fire and medical calls dial 911 and specify to the dispatcher that you live in Stallion Springs. To reach the police for non emergency purposes you may call 822-3268 during normal business hours or 800-861-3110 for off business hours.

... Exercise classes continue Tuesdays and Thursdays, 10:30-11:30 am. Work off the extra weight!

... The CC&R's are on our website at www.stallionspringscsd.com

... House numbers need to be visible from the street!

PAL (What is it?)

PAL is a youth crime prevention program that utilizes educational, athletic and recreational activities to create trust and understanding between police officers and youth. It is based on the conviction that young people - if they are reached early enough - can develop strong positive attitudes towards police officers in their journey through life toward the goal of maturity and good citizenship.

The PAL program brings youth under the supervision and positive influence of a law enforcement agency and expands public awareness about the role of a police officer in the local community and reinforces responsible values and attitudes instilled in young people by their parents.

Studies have shown that if a young person respects a police officer on the ball field, gym or classroom, the youth will likely come to respect the laws that police officers enforce. Such respect is beneficial to the youth, the police officer, the neighborhood and the business community. (www.nationalpal.org)

The Police Officers in Stallion Springs are extremely dedicated to the youth of our community, but it's tough doing it on their own. The PAL committee urges parents to get involved so we can continue to have activities for our children. For more information on how you can get involved, contact Sgt. Kevin Paille at 822-3268. PAL NEWS

The Easter Egg hunt was a great success! Thanks to the volunteers for stuffing and hiding the eggs. An extra special thanks to Woodward West for letting us use their gym facilities

PAL Summer camp has been scheduled for the following weeks: June 19, July 10, and August 7. Applications are now available at the CSD office. Swimming, arts and crafts, computers, physical fitness programs, and movies are just a few things that we'll be doing during the week. The cost is \$40 per child for one week. If anyone is interested in being a Counselor or Jr. Counselor, please contact Sgt. Kevin Paille at 822-3268.

PAL and POA are jointly sponsoring a Wine Tasting/Food Pairing Extravaganza July 15 at 5pm at The Lodge at Woodward West. Tickets are now on sale for \$35 per person or \$50 per couple. Contact Sgt. Kevin Paille at 822-3268 for more details. The proceeds from this fundraiser will go to both PAL and POA so they can continue to support our community.

STALLION SPRINGS COMMUNITY SPRING CLEAN UP DAYS

FRI. JUNE 2, NOON - 7 PM

SAT. JUNE 3, 8AM - 1PM

HELP US CLEAN THE COMMUNITY

CONTRACTORS: HELP PITCH IN BY CLEANING HOMES UNDER
CONSTRUCTION AND EMPTYING YOUR TRASH CONTAINERS

CLEAN YOUR YARD AND GARAGE

TRASH BINS WILL BE PROVIDED TO DISPOSE OF THE FOLLOWING:

CONSTRUCTION/DEMOLITION MATERIAL (INCLUDING CANS OF DRIED-UP PAINT - OCCUPIED HOMES ONLY)
APPLIANCES, FURNITURE, MISCELLANEOUS (I.E. CARPET PADDING, LAWNMOWERS, BBQ'S, AUTOMOTIVE PARTS)
NOT ACCEPTED - TIRES, CAR BATTERIES, MOTOR OIL (BENZ SANITATION WILL ACCEPT ON THEIR SITE IN TOWN)

FOR MORE INFORMATION, CONTACT SSCSD @ 822-3268

EVERYONE'S COOPERATION IS NEEDED FOR A CLEAN COMMUNITY!

**HELP THE COMMUNITY BY PICKING
UP TRASH AROUND YOUR LOT**

Stallion Springs Property Owners Assn

There are so many advantages to living in Stallion Springs. And each one that I can think of is fragile and easily lost if we, the community members, are not careful. Moonlight for example. Sunlight reflected off the surface of the moon is delicate and stunning. It illuminates our neighborhoods and hillsides after a journey of 93 million miles from the sun and thousands from the moon. Sounds pretty tough. But it is easily obliterated for you and your neighbors by a 60 watt lightbulb left on. Help protect our darkness by turning OFF outdoor lights.

Another great advantage of living here is the community of caring people. It is possible to consider everyone who lives in the far flung corners of Stallion Springs a neighbor. Having chosen to live here we all have a common bond. The Property Owners Association is an expression of the bond. There are committees that do community work like keeping the lending library functioning and individuals like Marlene Davis and Kellie Dustman who organize volunteers for special events like the Community Flea Market and the upcoming Car Show. As a participant or spectator, we get to share time and interest with our neighbors.

POA meetings are another setting where we can share time and common interests. Speakers are chosen who have information to enhance Stallion Springs life. And there is all that great food at the Pot Luck Dinner preceding the meeting. Look at the events that are coming up: June - Annual Meeting and Picnic; July - Wine Tasting; September - Car Show and October - Ride/Hike. Participate and get to know your neighbors.

For information call Susan Wellington, 822-8131 or Sandy Young, 822-8900.

LITTER FREE WEEK - June 25 - July 1 - Watch for special pick-up events scheduled every day.

Stallion Springs Trail Association

Since the beginning of the year, trail crews which included Ralph Pusatari, Leonard Spenard, Linda and Joe Well, Edith Frick, Marlene Davis, Bea Saldana, the Baldwin ladies, Tom and Shiela Bigby, Ross Williams and myself have been opening trails on the west side of Stallion Springs. These trails are challenging, offering more elevation changes than do the trails on the valley side. These trails are inviting because development is farther apart leaving the easements with a wild feeling. Also these trails have spectacular views of the southern end of the San Joaquin Valley, 2000 feet below. This is very rewarding work.

It is as rewarding to open new trails as it is discouraging to see the previous effort disappear into the tall grass. Mowing has already started. A *Trail Hero* has kept the St. Andrew Trail under control throughout the early part of the growing season. Another *Trail Heroine* has widened part of the Greenbelt Trail and part of the Boulevard Trail is mowed. These efforts are especially appreciated by hikers.

Everyone can contribute to the goal of having a system of recreational trails for hikers and riders by caring for the easement on your property. Make sure it is clear of large debris and mow a path. You can even mow your whole block!! Then you will be a *Trail Hero* or *Heroine*.

For even more fun you can join with other volunteers to work on trails May 27, June 24, and/or July 29. June and July will be mowing for sure. Any kind of mowing device has its use. The plan is to meet at Horse Thief Park at the designated time (earlier and earlier as the weather gets warmer). Then we will proceed to work sites. Refreshments are provided to the volunteers.

Happy Trails
Susan Wellington

TOT LOT

Need help finding a local, convenient, and trustworthy CHILD CARE facility? Look no further. TOT LOT Child Care opened its doors to the community on May 15, in honor of Mother's Day. They will be enriching children's lives with a preschool program, phonics, creative arts and much more. Plenty of room on their corner lot for the kids to hop, skip, jump and tumble. They also recently purchased a swing set and will provide a variety

of kid friendly items as they grow (donations always accepted and appreciated). They now have open enrollment and have seven openings available for ages infant to six. To find out more about what TOT LOT will be offering, please call TOT LOT where you can reach the certified care giver, Catherine McCoy, Lic.# 15390333. 661-823-8733. 17400 Bold Venture Dr. (Corner of Bold Venture & High Gun.

PARK & REC NEWS

by Lea, Parks & Rec Coordinator

Our first two months of new activities have passed with great results. The group hike had 19 people, including 5 children and 3 dogs. We went up the Pipeline Trail and came back down the Chanac Creek Trail, for about a 2 hour hike. The Scrapbook Crop had 5 people and we scrapped til we dropped! We got to meet people in our community with the same interests; some of us even learned new techniques. The Kid's Kraft had a great turn out. Nine kids made gifts for mom, even a few grandmas. We made CD case picture frames. The kids had such a great time, they're ready to be crafty again.

A group hike is scheduled for June 11 at 9 am. We will meet at Horse Thief Park for a 2 hour moderate hike. The next Scrapbook Crop has been scheduled for June 3 from 6pm to 10 pm. Kathy Bounville will make a Creative Memories presentation. We encourage anyone interested in scrapbooking to check it out. We will continue to meet on the last Saturday of the month from 6pm to 10pm. The next two Kid's Kraft activities will be June 10 from 10am to noon and July 1 from 10am to noon at the CSD. June' activity will be a Father's Day craft. Bring pictures and things that remind you of dad. July's activity will be a 4th of July craft. There will be some painting involved so wear old clothes.

Calendar List of activities

ONGOING

- Exercise class meets Tues and Thurs 10:30am to 11:30am at the CSD (except the weeks of June 19 and July 10 due to PAL Camp)
- Youth Group meets Tues nights at 6pm at the Church
- The Stallion Springs Quilters meet every third Friday from 9am to noon.
- Scrapbookers will meet the last Sat. of the month from 6pm to 10pm.
- The Cycling Club meets the 1st and 3rd Saturday at Man 'O' War Park.

JUNE ACTIVITIES

- Scrapbooking Sat. June 3 from 6pm to 10pm at the CSD
- Kid's Kraft, Sat. June 10 from 10am to noon at the CSD
- Group Hike, Sun. June 11 at 9am; meet at Horse Thief Park
- PAL Camp, June 19-June 23
- POA Elections and Family Picnic, Sat. June 24, 9:30am at Horse Thief Park
- Trail Maintenance, Sat. June 24 at 9:30am at Horse Thief Park

JULY ACTIVITIES

- Kid's Kraft Sat., July 1 from 10am to noon at the CSD
- PAL Camp, July 10 - July 14
- PAL/POA Wine Tasting Extravaganza, July 15 at 5pm at Woodward West
- Trail Maintenance, July 29 at 9:30am at Horse Thief Park

2005 Consumer Confidence Report

Water System Name: Stallion Springs CSD (SSCSD) Report Date: May 2006

We test the drinking water quality for many constituents as required by State and Federal Regulations. This report shows the results of our monitoring for the period of January 1 - December 31, 2005.

Este informe contiene información muy importante sobre su agua potable. Tradúzcalo ó hable con alguien que lo entienda bien.

Type of water source(s) in use: Eight (8) Groundwater Wells

Name & location of source(s): Seven (7) wells are located within SSCSD boundaries with One (1) well located in Cummings Valley

Drinking Water Source Assessment information: A Drinking Water Source Assessment (DWSAP) was completed in 2001 with updating done as sources are added or changed. The water source vulnerability is primarily subject to septic tank activity and limited agricultural activity

Time and place of regularly scheduled board meetings for public participation: Third (3rd) Tuesday of each month, 7:00pm SSCSD Boardroom, 28500 Stallion Springs Drive, Tehachapi, Ca. 93561

For more information, contact: David Aranda, General Manager Phone: (661) 822-3268

TERMS USED IN THIS REPORT:

Maximum Contaminant Level (MCL): The highest level of a contaminant that is allowed in drinking water. Primary MCLs are set as close to the PHGs (or MCLGs) as is economically and technologically feasible. Secondary MCLs are set to protect the odor, taste, and appearance of drinking water.

Maximum Contaminant Level Goal (MCLG): The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs are set by the U.S. Environmental Protection Agency (USEPA).

Public Health Goal (PHG): The level of a contaminant in drinking water below which there is no known or expected risk to health. PHGs are set by the California Environmental Protection Agency.

Maximum Residual Disinfectant Level (MRDL): The level of a disinfectant added for water treatment that may not be exceeded at the consumer's tap.

Maximum Residual Disinfectant Level Goal (MRDLG): The level of a disinfectant added for water treatment below which there is no known or expected risk to health. MRDLGs are set by the U.S. Environmental Protection Agency.

Primary Drinking Water Standards (PDWS): MCLs or MRDLs for contaminants that affect health along with their monitoring and reporting requirements, and water treatment requirements.

Secondary Drinking Water Standards (SDWS): MCLs for contaminants that affect taste, odor, or appearance of the drinking water. Contaminants with SDWSs do not affect the health at the MCL levels.

Treatment Technique (TT): A required process intended to reduce the level of a contaminant in drinking water.

Regulatory Action Level (AL): The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Variations and Exemptions: Department permission to exceed an MCL or not comply with a treatment technique under certain conditions.

ND: not detectable at testing limit

ppm: parts per million or milligrams per liter (mg/L)

ppb: parts per billion or micrograms per liter (ug/L)

ppt: parts per trillion or nanograms per liter (ng/L)

pCi/L: picocuries per liter (a measure of radiation)

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring

minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water include:

- *Microbial contaminants*, such as viruses and bacteria that may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- *Inorganic contaminants*, such as salts and metals that can be naturally-occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.
- *Pesticides and herbicides*, which may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses.
- *Organic chemical contaminants*, including synthetic and volatile organic chemicals that are byproducts of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff, agricultural application, and septic systems.
- *Radioactive contaminants*, which can be naturally-occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, USEPA and the state Department of Health Services (Department) prescribe regulations that limit the amount of certain contaminants in water provided by public water systems. Department regulations also establish limits for contaminants in bottled water that must provide the same protection for public health.

Tables 1, 2, 3, 4, and 5 list all of the drinking water contaminants that were detected during the most recent sampling for the constituent. The presence of these contaminants in the water does not necessarily indicate that the water poses a health risk. The Department allows us to monitor for certain contaminants less than once per year because the concentrations of these contaminants do not change frequently. Some of the data, though representative of the water quality, are more than one year old.

TABLE 1 - SAMPLING RESULTS SHOWING THE DETECTION OF COLIFORM BACTERIA					
Microbiological Contaminants (to be completed only if there was a detection of bacteria)	Highest No. of detections	No. of months in violation	MCL	MCLG	Typical Source of Bacteria
Total Coliform Bacteria	(In a mo.)	0	More than 1 sample in a month with a detection	0	Naturally present in the environment
Fecal Coliform or <i>E. coli</i>	(In the year)	0	A routine sample and a repeat sample detect total coliform and either sample also detects fecal coliform or <i>E. coli</i>	0	Human and animal fecal waste

TABLE 2 - SAMPLING RESULTS SHOWING THE DETECTION OF LEAD AND COPPER						
Lead and Copper (to be completed only if there was a detection of lead or copper in the last sample set)	No. of samples collected	90 th percentile level detected	No. sites exceeding AL	AL	PHG	Typical Source of Contaminant
Lead (ppb)	11	0.0025	0	15	2	Internal corrosion of household water plumbing systems; discharges from industrial manufacturers; erosion of natural deposits
Copper (ppm)	11	0.230	0	1.3	0.17	Internal corrosion of household water plumbing systems; erosion of natural deposits; leaching from wood preservatives

*Any violation of an MCL or AL is asterisked. Additional information regarding the violation is provided later in this report.

TABLE 3 - SAMPLING RESULTS FOR SODIUM AND HARDNESS

Chemical or Constituent (and reporting units)	Sample Date	Level Detected	Range of Detections	MCL	PHG (MCLG)	Typical Source of Contaminant
Sodium (ppm)	2003-04	58	35-87	none	none	Generally found in ground & surface water
Hardness (ppm)	2003-04	104	17-240	none	none	Generally found in ground & surface water

*Any violation of an MCL, MRDL, or TT is asterisked. Additional information regarding the violation is provided later in this report.

TABLE 4 - DETECTION OF CONTAMINANTS WITH A PRIMARY DRINKING WATER STANDARD

Chemical or Constituent (and reporting units)	Sample Date	Level Detected	Range of Detections	MCL [MRDL]	PHG (MCLG) [MRDLG]	Typical Source of Contaminant
Nitrate (as NO ₃) (ppm)	2005	25.5	ND-59*	45	45	Runoff and leaching from fertilizer use, leaching from septic tanks, sewage and erosion of natural deposits
Gross Alpha (pCi/L)	2002-04	2.5	0.018-11.9	15	0	Erosion of Natural Deposits
Fluoride (ppm)	2003-04	0.26	0.2-0.3	2	1	Erosion of Natural Deposits
Barium (ppm)	2003	0.13	0.13	1	1	Erosion of Natural Deposits
Selenium (ppb)	2003	7.5	3-12	50	50	Erosion of Natural Deposits
Uranium (pCi/L)	2002-04	12.3	2.07-18.7	20	0.5	Erosion of Natural Deposits
Radium (pCi/L)	2003	0.88	0.88	5	0	Erosion of Natural Deposits
Chromium (ppb)	2003-04	3.5	1.0-4.0	50		Erosion of Natural Deposits

TABLE 5 - DETECTION OF CONTAMINANTS WITH A SECONDARY DRINKING WATER STANDARD

Chemical or Constituent (and reporting units)	Sample Date	Level Detected	Range of Detections	MCL	PHG (MCLG)	Typical Source of Contaminant
Iron (ppb)	2005	93	80-200	300	NA	Leaching from natural deposits
Manganese (ppb)	2005	4	1-43	50	NA	Leaching from natural deposits
Color (units)	2002	3.75	1-10	15	NA	Naturally occurring organic materials
Odor (units)	2003-04	1	1	3	NA	Naturally occurring organic materials
Turbidity (NTU)	2003	2.2	2.2	5	NA	Soil runoff
TDS(ppm)	2003-04	310	290-380	1000	NA	Leaching from natural deposits
Chloride (ppm)	2003-04	38	18-72	500	NA	Leaching from natural deposits
Sulfate (ppm)	2003-04	47	28-88	5000	NA	Leaching from natural deposits

TABLE 6 - DETECTION OF UNREGULATED CONTAMINANTS

Chemical or Constituent (and reporting units)	Sample Date	Level Detected	Notification Level	Health Effects Language
Chromium VI	2002	1.95	NA	
Trichloropropane (ppt)	2002	5	5	
Vanadium	2002	12.9	50	

*Any violation of an MCL, MRDL, or TT is asterisked. Additional information regarding the violation is provided later in this report.

Additional General Information on Drinking Water

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the USEPA's Safe Drinking Water Hotline (1-800-426-4791).

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers.

USEPA/Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline (1-800-426-4791).

Summary Information for Contaminants Exceeding an MCL, MRDL, or AL, or a Violation of Any Treatment Technique or Monitoring and Reporting Requirement

June 2005 for two days the Cummings Valley #1 well exceeded the MCL for nitrates. The problem was corrected and there have been no violations since.

Nitrate in drinking water at levels above 45 ppm is a health risk for infants of less than six months of age. One well of The eight (8) wells supplying SSCSD has Nitrate levels above one-half (1/2) the MCL and one well had one (1) of the four (4) samples taken exceed the MCL. The following is required to inform you about Nitrate: " Such nitrate levels (above 45 ppm) in drinking water can interfere with the capacity of an infant's blood to carry oxygen, resulting in serious illness. Symptoms include: shortness of breath and blueness of the skin. Nitrate levels above 45 ppm may also affect the ability of the blood to carry oxygen in other individuals, such as pregnant women and those with specific enzyme deficiencies. If you are caring for an infant or you are pregnant, you should ask advice from you health care provider.

All Stallion Springs Residents

BICYCLE RIDERS WANTED!

Do you love the outdoors? Are you looking for a way to get in shape, and have fun at the same time? Come out and join the Stallion Springs Bicycling club for semi-monthly group rides. These will be planned, organized rides for all abilities on the 1st and 3rd Saturday of every month beginning in June.

We will start our rides from Man 'O' War Park on the 3rd of June at 9am with a fun ride around the Stallion Springs area streets. These rides will be geared toward the beginner rider that likes to keep their tires on the streets and the speeds slow. Perfect for young children or anyone wanting to get outdoors and enjoy the mountain mornings.

We are also looking for riders that enjoy fast road rides or mountain biking. Following our Fun Rides we will regroup at Man 'O' War Park at 9:30am for a more advanced group ride. The latter rides will be a combination of road rides on the 1st Saturday of each month and trail rides of our local Stallion Springs trails on the 3rd Saturday of each month.

For more details, please contact Darrin or Becky Mason at 822-4199.

COMMUNITY CENTER PHASE ONE GYMNASIUM AND MULTIPURPOSE ROOM DONATION FORM

All donations are welcomed. The District's goal would be if each improved property could donate \$200, this would raise \$200,000. Listed below is the following donation schedule.

- \$1 - \$999** Community Acknowledgement of your gift donation
- \$1000 - \$5000** A memory stone will be placed in the front of the building
- \$5001 - \$49,999** A sign will be placed inside the gymnasium for one year.
- \$50,000** The multipurpose room will be named per your choice for five years
- \$100,000** The gym will be named per your choice for five years

Please make checks or money orders out to the Police Activities League if you desire a tax deduction.

Community Services District Board of Directors Meeting Notes

Regular Meeting held April 18, 2006

- The Board approved expending money out of the road fund for engineering services in preparation of a road contract for fiscal year 2007.
- The Board went into closed session in regard to employee negotiations regarding pay and benefits.

Regular Meeting held May 16, 2006

- The Board approved the purchase of two police vehicles for fiscal year 2007.
- The Board discussed the preliminary budget for fiscal year 2007.
- The Board approved the purchase of a riding lawn mower for the parks.
- The Board approved two agreements with Tehachapi Cummings County Water District in regard to C. V. Well Number 1 and 2.
- The board approved listing three surplus properties for sale.
- The Board approved a Resolution dealing with Record Retention Policy.
- The Board discussed circular driveways on corner lots and the CC&R's.
